<sup>\*</sup> Only the date of filing (§ 1.6) will be the date used in a patent term adjustment calculation, although the date on any certificate of mailing or transmission under § 1.8 continues to be taken into account in determining timeliness. See § 1.703(f). Consider "Express Mail Post Office to Addressee" (§ 1.10) or facsimile transmission (§ 1.6(d)) for the reply to be accorded the earliest possible filing date for patent term adjustment calculations.

	LOWED APPLICATIONS
the	e mailing of FORM POL-327 and/or Examiner's Amendment on
the appropriat	vise the undersigned of the present status of this application, by checking te box below. A stamped return-addressed envelope is provided.
follows	
	APPLICATION
of Fo in ac the i or h exce three	rrent examining procedures now provide for the routine mailing from the Technology Centers (TCs) form PTOL-37 in every case of allowance of an application. Thus, the mailing of a form PTOL-37 ddition to a formal Notice of Allowance (PTOL-85) in all allowed applications would seem to obviate need for status inquiries even as a precautionary measure where the applicant may believe his er new application may have been passed to issue on the first examination. However, as an application in a status inquiry would be appropriate where a Notice of Allowance is not received within the months from receipt of form PTOL-37.
doci	trent examining procedures also aim to minimize the spread in dates among the various examiner kets of each art unit and TC with respect to actions on new applications. Accordingly, the dates ne "oldest new applications" appearing in the Official Gazette are fairly reliable guides as to the acted time frames of when the examiners reach the applications or action.
"The	erefore, it should be rarely necessary to query the status of a new application.
	NDED APPLICATIONS
two in on A po will t filing the r	ended applications are expected to be taken up by the examiner and an action completed within months of the date the examiner receives the application. Accordingly, a status inquiry is not der after reply by the attorney until 5 or 6 months have elapsed with no response from the Office. Instead receipt for replies to Office actions, adequately and specifically identifying the papers filed, be considered prima facie proof of receipt of such papers. Where such proof indicates the timely of a reply, the submission of a copy of the postcard with a copy of the reply will ordinarily obviate need for a petition to revive. Proof of receipt of a timely reply to a final action will obviate the for a petition to revive only if the reply was in compliance with 37 CFR 1.113."
